

## **TIP Project Manager Questions & Answers**

**November 9, 2018**

1. What case management system does LAW use?

*Legal Aid of Wyoming uses PIKA case management which is designed especially for use with LSC funded organizations. PIKA is an open source, SQL database that easily integrates with other open source software.*

2. The Timeline/Due Dates states that a draft document will be submitted to LAW by January 15, 2019. What document is that referring to?

*LAW was hoping by January 15 that the Vendor could have a written plan on the project with goals and measurable outcomes.*

3. Section 7.7 refers to estimated numbers in Section 6b. Would you list the numbers referred to?

*After review, this appears to be something left over from another RFP, please consider this a typo and has no bearing on this RFP and therefore should be ignored.*
